LTM & Facts

Fact ("number")
- abstract notion of a number
- In fully learning system would hold NN representation But we'll just fudge that as hard-coded.
- So here merely to be able to reference it.

Fact : SpokenWord
- "number"

[link]

Fact "Operation"
- Same as above.
- note: does not indicate any way of referring to it in speech.

Fact : SpokenWord
- "operation"

[link]

- When querying LTM. Can also access anything linked directly or indirectly to the item returned.

- Question is how much work is required to access those linkages.

- When abstract fact is in WM, and want to speak to it, first look for a SpokenWord item that is linked to it.
